Title

English Language Training

Merty Education provides English language training for individuals who wish to improve their writing, understanding and speaking skills.

Course Objective and Description

English is becoming more and more important in the areas of business, science, education, information technology and on the Internet. This program is held in Ankara and is designed in accordance with the criteria set by the 'Common European Framework of Reference: Learning, Teaching and Assessment' to help students describe the levels of language proficiency by existing standards, tests and examinations.

Who Can Apply

English Program is designed for Iraqi citizens of all ages and professions who wish to learn the language, improve their language skills or practice English.

Terms

The courses start in September, which is the beginning of the academic year, and continue all through the year until the end of August. Each term lasts 10 weeks and includes 60 class hours.

Classes

Classes are 6 hours per week. One class hour is 50 minutes. Intensive courses are for those who want to improve their language skills within a shorter period of time and include 12 class hours per week.

Levels

The levels of course have been designed for everyone, from beginners to advanced learners. At the beginning of each term, the new students are given a placement test to determine their levels.

Attendance

Students can not miss 1/5 of the total number of class hours if they wish to continue at a higher level the following term.

Assessment

The final grade of the students is determined by quiz grades and the final exam grade. The lowest grade required for a student to continue at a higher level is 70/100.

Method of Teaching

In the courses, the 'Communicative Approach' is used as it has been observed that speaking is the biggest challenge while learning a language. This method does not only emphasize theoretical information but also make sit easier for students to improve their speaking skills. In addition, the activities, exercises and dialogues in the classroom encourage students to be active learners.

Program schedule and tuition are determined upon request.
